I know a place where I can I take you
make you feel so fine - if you ready
so pack your bags and come with me
I'll take you on a ride I know you're waiting
Cause the power in the music brings you far enough
And the beat that's in your heart will take control of you
It's the music of the night battles up that day - yeah

Tonight
People of the world unite
If you feel it then you know it's alright
Makes no difference if you're black or white
The rhythm's gonna get you tonight
The rhythm's gonna get you tonight
The rhythm's gonna get you tonight
(The rhythm's gonna get you tonight) oohh yeah,

Repeat

Don't you know
Don't you know
Don't you know (The rhythm's gonna get you tonight)
(The rhythm's gonna get you tonight)
(The rhythm's gonna get you tonight)
Repeat
