Please don't be deceived by my current situation
As unlikely as it seems, I'm a PvP sensation
A legend in my time, not a legend in my mind
So if it's all the same don't make me get my main

Make me get my main (ahhhh)
Make me get my main (ahhhh)

So if you don't believe I'll arrange a demonstration
I was trying to spare you the pain of death and
devastation
But if you must insist on camping me like this
Well prepare yourself for pain, cuz I'm gonna get my
main

Gonna get my main (ahhhh)
Gonna get my main (ahhhh)

Well you've worn my patience thin and inflamed my
aggravation
Now my main will make you wish you'd observed my
exhortation
Well it's too late now for you cuz your camping days
are through
So just remember through the pain that you made me
get my main

No! Wait! Ahhhh!

You killed my main (ahhh)
You killed my main (ahhh)
