Do you know I feel the freezing blaze?  
Intoxicated lips  
I love the way I sing  
All the way to the stain  
I find you in this breath  
You lose yourself in lust  
Like a flame, purify  
Nothing felt anymore

I never dream until we die  
You make me breathe  
Where you evade  
I am full of the song  
You tear me apart  
I look at you again  
When will my heart begin?  
I sing in the air  
You cry for the moon  
If silence is closer  
We are bleeding the dream  
Do you know I saw one thousand lights?  
They fill me with one fear  
Breaking down through my eyes  
Stay with me till the end

I want to dream until we die  
You make me real  
Into the Shape  
Show me the world  
Transparent world  
We are awake  
After the gold

I am full of the song  
You tear me apart  
I look at you again  
When will my heart begin?  
I sing in the sun  
You cry for the moon  
If silence is closer  
We are bleeding the dream

Do you know I saw the freezing lights?  
Intoxicated lips  
Breaking down through my eyes  
Stay with me till the end

Stay with me  
Till the end  
Stay with me now  
Breaking down  
Breaking down  
Breaking down now  
Breaking down to the end
