When two or more are gathered in your name  
I lift to you this new praise song  
All the wrongs I have ever done have been  
Washed away by your only son

Bring me your tired, you said bring me your weak  
Bring me your hungry masses, we seek your glory

Lord, I sing to you a new song, a new song  
Lord, I give to you a new song, a new song

Hear the words, hear the words of a new believer  
A new believer  
Holy Spirit please descend on me, I long for your touch  
Your energy I want to be reborn into loving arms,  
Lend your grace please Lord hear my song

Bring me your tired, you said bring me your weak  
Bring me your hungry masses, we seek your glory

Lord, I sing to you a new song, a new song  
Lord, I give to you a new song, a new song  
Lord, I sing to you a new song, a new song  
Lord, I give to you a new song, a new song
