"Fly On High"

Visit "[Fly On High](#)" on MotoLyrics.com

It seems I've spent my entire life,
Working how to make things right
Sometimes falling, sometimes stalling
Calling me to shine a light

In this world I love and fear
I need you now to make things clear
This unity is for everybody

Your love has made my soul just fly on high
Pour your heart out on this earth Lord one more time
You gave me love, you gave me life
You gave me wings so I can fly on
You gave me love, you gave me life,
You gave me wings so I can fly away

In a past not long ago, spoke of things I seem to know,
It will be as it was told, we save ourselves as we save
the world

The hope of being more like you,
Steps that echo songs of truth,
Despised by a religious crew,
Lord I'm pushing into you

Your love has made my soul just fly on high
Pour your heart out on this earth Lord one more time
You gave me love, you gave me life
You gave me wings so I can fly on
You gave me love, you gave me life,
You gave me wings so I can fly away
