20 miles east of Aberdeen  
This guitar case wearing a hole in my jeans  
People ask me, where are you from, and I won't say

Sweat running down my dusty face  
Northwest towns look all the same  
People ask me who I am, and I won't say  
I just tell them...

It's a long, long, windey road, I've been on...  
It's a long, long, windey road, I've been on...  
I've slept all alone too many times  
Memories invade my foolish mind  
People ask me where I'm from, and I won't say  
So I just tell them...  
It's a long, long, windey road, I've been on...  
It's a long, long, windey road, I've been on...

It's a long, long, windey road, I've been on...  
It's a long, long, windey road, I've been on...
