

## Aynur Aydın "DNA"

Visit "[DNA](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Just like fireworks fire burnt under my skin  
But it was only one kiss  
Now I'm calling out, crawling out, coming undone  
I cannot handle this

I was drunk and I was a little lonely  
Now you're living in my DNA

I've got your love in my DNA  
You left a scar inside  
I've got your taste in my DNA  
Your love is just a lie

Would you cut it off, cut it off, out of my head  
It was only one kiss  
Won't you let me go, let me go, get out of here  
I cannot handle this

I was drunk and I was a little lonely  
Now you're living in my DNA

I've got your love in my DNA  
You left a scar inside  
I've got your taste in my DNA  
Your love is just a lie
