Give me some light  
Some guidance through these dark hours  
So I can reach my home  
And escape your dissapointments

On that single day [x2]  
You burned a hole through me [x2]  
Leaving an absence of life [x2]

I can't escape fate  
Or erase you from my memory  
I can't bring back broken dreams, you took them away  
[x4]  
You took them away

You killed me inside  
Killed me inside [x2]

Fate  
Or erase you from my memory  
I can't bring back broken dreams, you took them away  
[x4]  
You took them away
