Twins

From the Movie "Twins"

Performed by Philip Bailey Little Richard

What happened to you  
Hey I could feel it  
I smile and cry  
Without knowing why  
The join the pain would be so real  
I felt like my life was happening to me  
And now I know, its cause you're part of me  
Was it my choice, it was meant to be  
We were connected even when apart  
We got together right from the start

\*Twins, united that's how it is  
When you're twins, the magic just never ends

If one day is good then two is better  
I can't complain cause I'm ahead of the game  
Please pick the pain double the pleasure  
I'm starting to feel my philosophy  
Now we're not just your average family  
We got better this suppose people never seen  
And if I had a chance to live and again  
I wouldn't want it unless I was your twin

(Repeat \*)
