I never want to be all alone  
Never go away  
I found the only place where I belong  
Boy, you know just what to say  
You're the only one that holds the key  
To unlock my door  
So open up the gates and set me free  
And I'll love you even more

### Chorus

We're falling together  
I'm calling your name forever  
So take me to heaven  
Tell me I'm yours forever  
We're falling, caress me  
Touch me and say you love me  
So take me to heaven  
And tell me I'm yours forever

### Verse 2

Could you be the only one for me  
Tell me what you feel  
I want you to be honest and for real  
Lets kiss and close the deal  
How can I be the one that makes you smile  
Light your face up like the sun  
My love is innocent just like a child  
Let me be the only one

### C-Part

If only you would come to realize  
We are made just for each other  
And we can make it work and last forever...
