Don't talk about me baby
Don't talk behind my back
Don't talk about me baby
Don't talk about me like that

The ladies act
It attracts
The likes of me and jack
But in fact
If you check it out
It lacks impact

She'll be hoppin and jumpin and leaving and lyin
And cryin then dyin it every single day
I wanna jump, I wanna scream
I wanna tell you 'bout my dreams
Gotta get away, gotta get away today 'ay

Don't talk about me baby
Don't talk behind my back
Don't talk about me baby
Don't talk about me like that

Little silly willy, he went a little silly
And willy he went out late last night
Now who should meet willy, out with lilly
But her boyfriend billy late last night
Then billy gotta little rough with lilly
So willy said hey billy I think that's enough

Then billy went silly, he beat little willy
And willy he went out last night

He said
Don't talk about my baby
Don't talk behind my back
Don't talk about me baby
Don't talk about me like that

Don't talk about me baby
Don't talk behind my back

Don't talk about me baby
Don't talk about me like that

(solo...)

Don't talk about me baby
Don't talk behind my back
Don't talk about me baby
Don't talk about me like that

Don't talk about me baby
Don't talk behind my back
Don't talk about me baby
Don't talk about me like that

Don't talk about me baby
Don't talk behind my back
Don't talk about me baby
Don't talk about me like that
Don't talk about me like that
Don't talk about me baby
Don't talk about me like that
Don't talk behind my back
Don't talk about me like that
Don't talk about me baby
Don't talk about me like that
Don't talk about me like that
Don't talk about me like that
