I want to be the only one who can solve the mysteries
that take control of our lives!
With my friends we will go anywhere in this world!
Forever for all of time! BOON!
Oh, this dream!
That will warp and loop inside my mind!
Plays around with my heart, I imagine someday that it
might ABSORB US ALL!
I still remember that sunny day!
Magical games that we used to play!
Pour down endlessly, Couldn't possibly! Take these
memories from me!
I'll see you tomorrow then we can say!
We're laughing and humming all of the way!
Gather happiness using together-ness!
You'll find it isn't hard if you can really try! Gotta learn
to chase it... (gotta learn to chase it...) gotta yearn to
grasp it. We love dreaming big!
So dream! And dream! Suki deshou?
