No time you loving me
You know I love you back
I feel it, someone in my
Arms, I make you
Time, I break you
Though I want you to stay
You were never loving me
By the way you smile and call my name
Wanna let it go

I don't wanna mess with you
Just one more night and wanna
Dance with you
Never take your love from me
You know I'll take you with me
Can't you see, no no no no

I believe the sunlight will shine upon us here
Remember me
Just the way I smile and
Know I will hold on to everything you say
You and ever more
I will always baby
Know the sunlight will shine upon us here
Remember me
Everytime you call me
Know I will hold on to everything you say
You and ever more
Come into my heart
