Why the sun is there in the sky
Why it's not in the deepness of hell?
Why it's raining today?
But not tomorrow?
Why are you sleeping now?
If you can sleep at night?

Shut your mouth close your brain,
Don't let pain come in to you.
Ask yourself what it means
If your heart want's to scream?

Why my soul is crying so badly
When it has to shine and smile?
Why I feel so sad and angry
If I can fly in happiness?
Why my ayes are full of tears
Why I see the blood on floor?

2x
Shut your mouth close your brain,
Don't let pain come in to you.
Ask yourself what it means
If your heart want's to scream?
