4x

Somebody want's to cry
Somebody want's to fly

Take me to your high
And make me all your bride
And take me to the river
And wash all sins of mine
Just two of us in heaven
Just married with some wine
Child woke up from bad horror
Saw mummy in my smile

4x

Nobody want's to cry
Nobody want's to fly

Fly closer to the sun
And feel your wings are burning
All feather's black and dusty
Cos it has stand in heaven
I'm not an angel you might think
I'm just a person who want's to fly
And you can tell I need a doctor
But I feel free, absolutely free

3x

Nobody want's to cry
Nobody want's to fly

Somebody might try
My every day we are so lie
