"Bleed Together"

Daddy come home just before dawn
Drunk and punching the walls
Momma she cried, lonely inside
Watching her dream house fall

Sisters and brothers, we're bent out of shape
Friends and lovers, there ain't no escape

So we all bleed together
With our souls undone
Yeah we all bleed together
When the heart dies young

Sisters and brothers, they're all bent out of shape
Friends and lovers, there ain't no escape

So we all bleed together
I ain't standing next to none
Yeah we all bleed together
Sisters and brothers, friends and lovers

We all bleed together
Oh, with our souls undone
Yeah we all bleed together
When the heart dies young
