"Out of My Head"

You wish me like a ring
To be wrapped around your finger
You'll never hold me down
You'll never hold me-

Crushing everything
No reason i should linger
You tried to keep me sane
You tried to keep me-

I never wanted to be saved

I'm out of my head and I understand
Out of my head and it's on my hands
One hundred reasons why
I'm out of my head, it's a hard goodbye

Thinking we could win
Just denying all my senses
You'll never hold me down
You'll never hold me-

I never wanted to be sane

I'm out of my head and i understand
Out of my head and it's on my hands
One hundred reasons why
I'm out of my head, it's a hard goodbye
