"Still Not Dead"

Promise and a wink, still taste it in my head
All the crazy that you gave me like a nine-to-five
Are you surprised-

I'm still not dead, I'm still not dead
Nietzsche's head, just makes me stronger, yeah
I'm still not dead, I'm still not dead
You haven't killed me yet

Feed me poison, a little each day
But I look to the stars at night.
So press your body against anybody
But nothing ever grows
Like the light of Venus, nothing glows

Too ill to love, too ill to love, you'd kill to love
One of your own now, yeah
I'm still not dead, I'm still not dead
I can take anything

I'm still not dead, I'm still not dead, I'm still not dead
Just makes me stronger, yeah
I'm still not dead, I'm still not dead
