Looking back I can say
That I'm glad I've come this way.
There's no doubt that I've got more
Than I've ever had before.
You took my hand and led me
Out of darkness, oh yes.

Full circle, I have come,
You can ask me where I come from
And when I tell you that it's no lie
I've come full circle in my life.

I could hear your records play
Around the world and in the States.
And those days were like a dream,
At times you're up then down it seems.
Will this last, what will be
My life tomorrow, oh no.

Full circle, I have come,
You can ask me where I come from
And when I tell you that it's no lie
I've come full circle in my life.

With one touch of His hand
I was made a newborn man.
What I had gained I left behind
It's drifting further back in time, bye bye.
You took my hand and led me
Out of darkness, oh yes.

Full circle, I have come,
You can ask me where I come from
And when I tell you that it's no lie
I've come full circle in my life.
