Today's another day
Let's forget about yesterday
Tomorrow's another way
To distract us from now

So here we are, the day is young
What will be? What will become now?
I'm gonna let You decide

I'll be me and You be You
Why do I confuse the two?
I've gotta swallow my pride

Take my heart, take it all
I lay my life down at Your feet
'Cause I want what You want for me, yeah
Take my heart, take it all

Today's another day
This tomorrow's yesterday is now
We're only one breath away
From it all falling down

So scatter those dreams
The ashes of our own opinions
Here's to good health, selfish ambition
Creating our own custom, religion
I'm so tired of myself

Take my heart, take it all
I lay my life down at Your feet
'Cause I want what You want for me

Here we are, the day is young
What will be? What will become now?
I'm gonna let You decide

I'll be me and You be You
Why do I confuse the two?
I've gotta swallow my pride

Take my heart, take it all

I lay my life down at Your feet
I want what You want for me, yeah

Lord, bring it on, bring it on, Lord
Today, Lord, bring it on, bring it on
I want what You want for me
Today, whatever it takes
Whatever You want, bring it on

I lay my life down, whatever it takes
Whatever You want, bring it on
Whatever You want, bring it on
Bring it on, bring it on, bring it on
