We have digits to fill the keys
The problem with that is
Reaction, retraction
A pseudo wordsmith we can see

Dictionary word of the day
So comment on this thread
Your exposed, your exposed
So try and say those words to my face

Where has trust gone?
It is dead it is dead it is dead
From the moment you brought him back home

Where has love gone?
It is dead it is dead it is dead
From the moment you brought him back home

Where have you gone?
You are dead dead dead
From the moment you brought him back home

Faceless death threats
Your life's hopeless
