Don't tell me you're not beautiful
Don't lie to yourself like that
Look in my eyes all I see is lovely

So let me climb over the walls of your heart
The ones you built up aren't tall enough to stop me
Nothing's gonna stop me now

There's no place to move no place to run
No place to hide away from love
You know you're all I want now
You know you're all I want now

So stop running against the wind
Stop fighting a fight you won't win
And let me in
I wanna make you feel beautiful

Cause I don't care about the scares on your soul
I don't care about your past so let it go
Look in my eyes cuz it's time it's time

There's no place to move no place to run
No place to hide away from love
You're all I want now
So don't let this go and pass you by
It's time to let your heart decide
You know you're all I want now
You know you're all I want

I am reaching for you.
Will you reach back to me?
I am longing for you.
Are you longing for me?
I am reaching for you.
Will you reach back to me?
I am longing for you.
Are you longing for me?

There's no place to move no place to run
No place to hide away from love
You're all I want now

So don't let this go and pass you by
It's time to let your heart decide
You know you're all I want now
You know you're all I want

So don't close you're eyes
So don't close you're eyes
You know, You know you're all I want
