There's a fire in every man's heart
That's waiting to burn
For some it takes a lifetime to learn, to learn
But back December when my world started turning
I still remember the day
I felt the weight of a thousand ships
Sail on, and on, and on

And I want to know what it's like
And you want to know if it's true
And I know there's a deeper side of you
A deeper side of you

I know it's been raining on you
Since you were 17
The waters rose up so high
That you lost your meaning
I miss the summer when the air was so thin
I saw you come alive
What will take to turn the light on
Turn it on, and on, and on

Don't let them take you down
Let them hear you sing
Singing out

And I want to know what it's like
And you want to know if it's true
And I know there's a deeper side of you

And I want to know what it's like
And you want to know if it's true
And I know there's a deeper side of you
A deeper side of you

Don't let them take you down
Don't let them take you down
Don't you let them take you down
Let them hear you sing
Singing out

And I want to know what it's like

And you want to know if it's true
And I know there's a deeper side of you
Yes there is

And I want to know what it's like
And you want to know if it's true
And I know there's a deeper side of you
There's a deeper side of you
There's a deeper side of you
There's a deeper side of you

Let me here you sing
Da da ra ra [continuously repeat]
There's a deeper side of you
