

Phillip Larue "Why"

Visit "[Why](#)" on MotoLyrics.com

Look at the sun and how it shines
And how it attaches to the people walking by
Clouds are hanging in the sky
I don't know how, I don't know why

I don't know how, I don't know why
We can't believe in something we can't see
In something we can't see
Why we can't believe in something we can't see
When You're all around me
When You're all around

I know You're all around

Look at the day as it slips away
As the stars come out to shine
To think for each one You have a name
You have a name
And not to impart of Your design

I don't know how, I don't know why
We can't believe in something we can't see
In something we can't see
Why we can't believe in something we can't see
When You're all around me
You're all around

When you look outside and you open your eyes
Can you feel it like me?
Can you feel it when the wind blows
When the waves crash on the sea
When you take a deep breath, don't forget
Who gave you that in the first place
We didn't pick the day we were born and we
Won't pick the day we die
I don't know
I don't know why

We can't believe in something we can't see
In something we can't see
Why we can't believe in something we can't see
When You're all around me

You're all around

You're all around [x8]
