Change your color
Change your name
Change your culture
Be the same
Come and join us
Make us strong
Don'€™ t be different
Don'€™ t be wrong

Calm down
Face the facts
You are nothing without us
Who will be your friends now
What side are you on

Change your future
Change your past
Change your neighbours
They won'€™ t last
Be a model
For us all
Strong we stand
Weak they fall

Calm down
Calm down

Don'€™ t be different x4
Come and join us x4
