Human Drum
Too many bridges turned
Mile and mile of earth
Scorched behind us

And I need to ask you this
I need to understand the truth

Can you hear the human drum beating?
Hear the human drum
Can you hear the human drum beating?
Kicking out
Kicking out

And then I get so low
When the wire between us
Comes between us

Can you hear the human drum beating?
Hear the human drum
Can you hear the human drum beating?
Kicking out
Kicking out
The human drum
