I'm loving every moment with you
Like the times that we wasted all afternoon
I liked it the most when you dressed up like a ghost
And kissed me in your parents living room
I'm loving every moment with you
When you smile and you laugh just like you do
If I could find a way I'd show you
Just how wonderful life has been since I've known you
I'm loving every moment with you
And I realize I don't have a clue
How could I live my life without you
But I'm terrified that I'm about to
I'm loving every moment with you
And I've waited all along 'til I was sure I knew
If I tell you that I love you I do
I would never make a promise unless it was true
It seems the hardest part of being apart
Is the waking after dreaming you were in my arms
And then I open eyes and I realize
The only thing I'm holding is a memory in my heart
It'll soon be six o'clock and I've gotta talk
I'm hating every moment until you get home and you
call
I'll be all alone by the telephone waiting, waiting
To hear you love me after all
I'm loving every moment with you
'Cause you're everything I don't want to lose
I'll see you in a week or two
Then maybe I can spend the rest of my life with you
