He patrols the highways from the air

D e m

He keeps the country safe from long hair

Bb f g

I am the masculine american man

D c d c d

I kill therefore I am.

I don't like the black man, for he doesn't know his place

Take the back of my hand or I'll spray you with my
mace

I'm as brave as any man can be

I find my courage through chemistry

I am the masculine american man

I kill therefore I am.

I don't like the students now, they don't have no
respect

They don't like to work now, I think I'll wring their necks

They call me pig, although I'm underpaid

I'll show those faggots that I'm not afraid

I am the masculine american man

I kill therefore I am.

Farewell to the gangsters we don't need them anymore

We've got the police force, they're the ones who break
the law

He's got a gun and he's a hater

He shoots first, he shoots later

I am the masculine american man

I kill therefore I am.
