The klan rode through old monroe town  
They rode there many a year  
One black day they rode too far  
The cry of freedom was near

Monroe town is a dying town  
It's a human scar with their feathers and their tar  
With guns in their in their hands they rose to a man  
Beat monroe clan they ( ? ) made a stand

There is a courthouse in monroe town  
The truth is never let in  
It doesn't really matter what you have done  
You are judged by the colour of your skin  
Freedom had a brother in monroe town  
Rob williams was his name  
Liberty was his battle cry  
And justice was his aim

Every state has a monroe town  
Just look and you will see  
Let's get together and clean them out  
Let's really make our country free
