"Because You Live"

Staring out at the rain with a heavy heart
It's the end of the world in my mind
Then your voice calls me back like a wake up call
I've been looking for the answer
Somewhere
I couldn't see that it was right there
But now I know what I really know

Because you live and breathe
Because you make me believe in myself when nobody
else can help
Because you live, girl
My world has twice as many stars in the sky

It's alright, I survived, I'm alive again
Cuz of you, made it though every storm
What is life, what's the use if you're killed inside
I'm so glad I found an angel
Someone
Who was there when all my hopes fell
I wanna fly, looking in your eyes

Because you live and breathe
Because you make me believe in myself when nobody
else can help
Because you live, girl
My world has twice as many stars in the sky
Because you live, I live

Because you live there's a reason why
I carry on when I lose the fight
I want to give what you've given me always

Because you live and breathe
Because you make me believe in myself when nobody
else can help
Because you live, girl
My world has twice as many stars in the sky

Because you live and breathe
Because you make me believe in myself when nobody

else can help
Because you live, girl
My world has everything I need to survive

Because you live, I live, I I
