Little Eyes

See through me again  
They know all of my sin  
As I try to hide it away again  
And I know that you're there  
And I see how much you care  
But I throw it all away again

What I really know (chorus)

Say you need me  
When I'm far away  
Something I hold deep inside of me  
When I'm alone  
I pray that you can see  
The life that I lead  
Each time I try to turn away Little Eyes are begging me  
to stay  
But I tell myself it's OK This time  
I hide behind the mask I wear  
So blind....I never see you there  
And now you are just like me Oh Yeah

What I really know  
(chorus)

Little Eyes x4

What I really know x4
