Prejudice throughout the land, don't look at us, we're
anti-Klan
Black hates white, white hates black
Tell me why, I don't understand

[Chorus]

I don't want a fuckin' race war - No way!
I don't want no segregated schools - No way!
I wanna have the right to choose my friends - Fuck you!
I don't want your narrow minded ways

Racial groups, they plan attack
I guess they think we won't fight back
I care about all human beings
And not the color of their skin

[Chorus]

We're anti-Klan! [x4]
