Every day i find it kicking in. i find that thing i need and then begin. inspired by a love that never ends. i'm so glad that she is my best... friend. friend. friend. friend. sometimes i get so down and out, wo oh! i wanna scream, i need to shout, wo oh! but then the pieces start to mend. with help and heart from my best... friend. friend. friend. friend. every day i find it kicking in. i find that thing i need and then begin. inspired by a love that never ends. i'm so glad that she is my best... friend. friend. friend. friend.
