He said, "Come along, that urge has come again and
now I'm feeling strong",
Expectations of you, don't care is you want to want
along,
Love for those who make it without knowing how
another feels,
The fact is, what you do is rape, it never crossed your
mind before,

[Chorus]

An opinion of feelings
It's just pride, no real depth,
Opinion of feelings,
Do those feelings mean anything at all
He's pulled you down, he's taking aim, you wonder
what he's waiting for,
And he may get his way this time, but will he ever
change your mind,
A sharp resentment, guilt, deep pain, all this in the act
of love,
And now you're just a victim of his gain, a selfish game
