Own up, you know it's your fault
Excuses won't save you at all
Your cheating has broke us apart

Fooled around on me this time
Fooled for the last time, baby

Now I'm back where I started
This lonely dance of the broken hearted
You don't know a thing about falling in love
You don't know a thing about falling in love

Give in, I know what you are
That stupid smile used to get you so far
I'm done with you breaking my heart

Fooled around on me this time
Fooled around for the last time, baby

Now I'm back where I started
This lonely dance of the broken hearted
You don't know a thing about falling in love
You don't know a thing about falling in love

Another lie and the scent on your clothing
Another word out your mouth I'm not believing
Another lie, another lie, another lie to me

Now I'm back where I started
This lonely dance of the broken hearted
You don't know a thing about falling in love
You don't understand what I've been dreaming of
You don't know a thing about falling in love
You don't know a thing about falling in love
