Day after day alone in my room
I ask myself why, why can't I get through to you
I feel like you're overreacting
It's like we're going through the same thing

When love comes down
I'm safe with you
And I'm tryin' to find my place with you
And I know that we could work it out
It ain't over, girl
It ain't over, girl

I miss our love
Can we go
Back to the way it was, was
Back to the way it was, was
You left me alone
Can we go
Back to the way it was, was
Back to the way it was, was

Day after day alone in my room
A knock at my door and I'm hoping it's you
I feel like you're overreacting
My heart is racing, oh baby

When love comes down
I'm safe with you
And I'm tryin' to find my place with you
And I know that we could work it out
It ain't over, girl
It ain't over, girl

I miss our love
Can we go
Back to the way it was, was
Back to the way it was, was
You left me alone
Can we go
Back to the way it was, was
Back to the way it was, was

Yeah, you know you love me long time
Stop playing the games
Girl you love me long time
You know you love me long time
Stop playing the games
Girl you love me long time
[repeat]

I miss our love
Can we go
Back to the way it was, was
Back to the way it was, was
You left me alone
Can we go
Back to the way it was, was
Back to the way it was, was

I miss our love
Can we go
Back to the way it was, was
Back to the way it was, was
You left me alone
Can we go
Back to the way it was, was
Back to the way it was, was

Back to the way it was, was
Back to the way it was, was
Back to the way it was, was
Back to the way it was, was
