She was there in the Stands
Come Rain or Come Shine
She was the Lady, That Smiled all the time
I know times were hard, But she never let on
No, it wasn't easy, But she was so Strong

But she believed in me, When I just gave up
She took all my worries
And She gave me Love
She rocked me to sleep, With a sweet lullaby
I thank god, for that woman in my life

So many bruises and young broken hearts
And I'll faded arrows, that all missed their makes
Then I found a lover, Like there?s never been
She?s my babies mother
And she?s my best friend

And She believes in me, when I just give up
She takes all my worries
And She gives me love
And she rocks me to sleep, with a sweet lullaby
I thank god, for this woman in my life

Now she?s two years old
And she?s my biggest fan
And I?m wrapped round the finger
Of her little hand

And She believes in me
When I just Give up
She takes all my worries
And She gives me love
I rock her to sleep, with a sweet lullaby
I Thank God, for this Woman in my Life
Oohhh ? I thank god, for this Woman in my Life
