No, I can't face this reality
I lie here on this bed
I'm strapped with chains that I can't see.
Why, why had it just to be me
Always depend on someone else
To live this life of misery

Can only feel
The mental pain
This way of living is just driving me insane
A withered plant
But realize
That I'm the sorrow wasting other people's life

Ch.
Paralysed... Paralysed
Paralysed... Don't want to live this way
Paralysed... No change from day to day
Just want to die

No, I don't need your concerned advice
Can't take this anymore
Ain't got no goal in this fucked up life
God is this the way life's meant to be?
Then I just wanna die
Somebody help me set free, free

Ch.
