I met you on a Saturday  
I kissed you and now I got your foot in my mouth  
I got your foot in my mouth  
I got your foot in my mouth  
I got your foot in my mouth

I got you trembling at the point of release  
I see a hundred funky options right in front of me  
Go call the doctor 'cause I'm weak at the knees  
I gotcha (hey hey hey hey)

I always knew that you had something to prove  
One crazy move and I'm in love with you  
No-one believes you do the things that you do  
I gotcha (hey hey hey hey)

I met you on a Saturday  
I kissed you and now I got your foot in my mouth  
I got your foot in my mouth  
I got your foot in my mouth  
I got your foot in my mouth

All I wanted was somebody to miss  
How was I to know that it would come to this?  
Late in the evening I'll be granting your wish  
I gotcha (hey hey hey hey)  
It's 4am and we're disturbing the house  
Cat and mouse  
The sun is North, but I'm heading South  
I gotcha (hey hey hey hey)

I got your foot in my mouth  
I got your foot in my mouth  
I got your foot in my mouth  
I got your foot in my mouth  
I got your foot in my mouth  
I got your foot in my mouth  
I got your foot in my mouth  
I got your foot in my mouth
