In a world that is falling apart, I have found my hope
Cause the power that brightens the stars, brought to
life my soul
Now im calling from roof tops, shouting from mountain
peaks
You're everything to me

Forever I'll tell you
Yeah I'll scream until it hurts
That I can't live without you
You are Heaven I am Earth
And even from the moment that you saved my life
That I'll always love you

Hallelujah the battle is won let the church bells ring
Hallelujah salvation has come and it came for me
What was lost now is found, yeah the heart that was
bound is free
Your grace amazes me

Forever I'll tell you
Yeah I'll scream until it hurts
That I can't live without you
You are Heaven I am Earth
And even from the moment that you saved my life
That I'll always love you
