You love to spread the secrets  
That you should keep locked in your dirty mouth.  
Tell me, is it so hard to stay quiet?  
You lie and spy to see them cry  
And never know when you gotta go.

Chorus

GO! You wanna go, huh?  
GO! You wanna go, huh?  
GO! You wanna go, huh?  
GO fuckin drama queen!

GO! You wanna go, huh?  
GO! You wanna go, huh?  
GO! You wanna go, huh?  
GO fuckin drama queen!

You love to look at me  
To see your biggest personal enemy.  
Just keep your tempting mouth well closed  
And find the perfect way to go.

If you would see what I see in you  
You would never open your eyes again.  
If you would feel what I feel for you  
You would never ever talk to me again.  
Talk to me again.
