Party over here party over here  
This time we bring it to an end just like we should  
Too late for givin' it up. I wouldn't do it even if I could  
And even if your fist is the last thing I'll ever see  
There's no mercy mercy mercy mercy for me  
Don't hold me back  
Motherfucker why?

Chorus  
We kick up dust and break them bones with our bare  
hands  
We fall and rise again to show them who's the man  
No matter who will win it's entertainment  
This is what we call the last man standing

I smell adrenalyn and I smell fear  
There's no back up today  
That's the reason why we're here  
And even if your body's turnin' black and blue  
I won't mercy mercy mercy mercy you  
Don't hold me back  
Motherfucker what?

Chorus

Stand up fucker  
Stand up motherfucker  
Stand up bitch  
Stand up motherfucker

(4x)  
Left right left right left right uppercut

Chorus
