Ruin me now

What do you hide there?
What do you hide there?
What do you hide there in your face?
Is it a smile or is it a grin or is it something in between?
Do you think I don't know?
Don't you think I can show respect to those who earn it?
Loyalty to those who deserve it?

Chorus:

Your hate is not enough
Jealousy will kill one day
It will take you and it will break you down
When times get rough I'm gonna make you pay

What do you get there?
What do you get there?
What do you get there in your hands?
Is it a pen or is it a weapon or something in between?
Don't you know I know you?
Don't you know that I can blow you away?

Chorus

Are you happy with what you're doing?
Why do you try to ruin me?
Ruin me means ruin you
Ruin me means ruin you
Ruin me means ruin you

Chorus
