Yo,I came a long way (belive that!),but still know where
I started from
And where this art is comin' from...
The masters of ceremony

Rule or cry! Do or die! For the microphone...
And I was able to speak but not able to hold a mic
Was able rhyme, not able to speak them lines right

But I waited for the day until the time was right
I wrote all night until then I kept it quiet (shhh)
There still too many talented MC's unsigned

Too many untalented muthafuckers on my mind
I get angry when a rookie steps up
With words that don't make sense
Tellin' me to get up...like this...

(You wanna battle? you wanna go against me?
I'm the best around as you can see..)

Oh,can't you see that this is me??? (this is real!)
Oh,can't you feel that this is real???

First,pay dues to the old school and
Respect the veterans or you will never be better
Than the average rapper; take a look...
Just because you can write doesn't mean

That you can use a blakkbook (did you hear me?)
(But you love guitars...) - but I'm true to the game!
(What you do this for?)- yo, I do it for the fame!
(Yo,I got mo'cash than you!)-than give me all you
can!

But if you're broke,ask juvinille (you understand?)
I don't roll a benz I got a v-dove.
And all you hiphops get all my love
Without you I wouldn't be here (remember that?)

If not, check the song called "Alina"
I don't want to disrespect

Don't blame me if you miss respect
I just wanted to make one thing clear...(say what?)
My love for hiphop is the reason,why brasko's still
here

Traditional MC-metaphors...is what I use
And why I'm gettin' applause
It's not about videos,bitches or cars
It's about understanding,so keep your creditcard
Shhhhh...

Oh,can't you see that this is me?
Namebelts, kangols, blockparties and all that
Oh,can't you feel that this is real?
Spraycans, fatcaps, wholecars- FOREVER!

Oh,can't you see that this is me?
Uprock,backflips, headspins and sixsteps
Uh, can't you feel that this is real?
Shelltoes and our laces were fat!
