I saw you with Carini and that piece of ass
You built your house with windows but those windows
had no glass
Lucy had a lumpy head, Lucy took a walk, now Lucy's
dead

You told me of a secret place
I saw it when I met you, the war is on your face
Aghilla (Carini) scared the shit out of the ram

The thesis that you're writing is a load of shit
But I'm glad you finally finished it
You went across the street and he called his dad
Now you'll never get the raise you thought you had

If all was screaming when they saw the lump
Everyone was screaming when they saw the lump
Aghilla (Carini) scared the shit out of the ram

Carini had a lumpy head
Carini had a lumpy head
Carini had a lumpy head
Carini had a lumpy head
