I saw you with Carini and that naked dude
I couldn't eat my food
Lucy had a lumpy head
Lucy took a walk, now Lucy's dead
You told me of a secret place
I saw it when I met you, the walrus on your face

Carini scared the shit out of the ram

The thesis that you're writing is a load of shit
But I'm glad you finally finished it
He ran across the street and he called his dad
Now you'll never get the raise you thought you had
People were all screaming when they saw the lump
Everyone was screaming when they saw the lump

Carini scared the shit out of the ram

(chorus) Carini had a lumpy head
