### "Never Lose Hope"

Visit "[Never Lose Hope](#)" on [MotoLyrics.com](https://MotoLyrics.com)

(2C2H4 S2Cl2 - C4H8Cl2 S)  
Introduced as weapon during World War I  
Both used by Allies and Germany  
Among the choking chlorine and phosgene  
Was the blinding mustard gas, it's colour yellow-green  
Unreliable weapons, primitive minds,  
Rebounding the attacker, primitive times  
Throw another one into air,  
Hould the course alter would be fair?  
The experience is felt, gasmasks for air,  
Down in the trenches the dead are the bare  
Patriotic pride stop at nothing,  
Dying to see the opponent suffering  
Introduced as weapon during World War I  
Both used by Allies and Germany  
Unreliable weapons, primitive minds,  
Rebounding the attacker, primitive times  
Patriotic pride stop at nothing,  
Dying to see the opponent suffering  
Die, in a confrontation, as it comes down  
You will never see the light of this declining world  
again  
Die, by the gas, as it comes down  
You will never see the light... you're dead  
Ypres, Verdun, Somme
