The revolution's over baby
The revolution's over baby now
The revolution's over baby
The revolution's over baby now

Reelin' and quakin'
Bringin' home the bacon!
We're all getting taken for a ride

Kiss your mama goodbye
Time to let it all fly
Don't get caught
With your fingers in the pie

The revolution's over baby
The revolution's over baby now
The revolution's over baby
The revolution's over baby now

Time to start a new one
Different than the old one
Something that they've never seen before

The revolution's over baby now
The revolution's over baby now
The revolution's over baby now
The revolution's over baby now
