Its no easy road
this struggle and strife
We find ourselves
in the show of life.

Whats on your schedule
Whats on your plan
Do you ever ignore
What you don't understand

Don't ask me cause I don't know
I just fasten my seat belt wherever I go

Its been perfectly planned
Its completely insane
Its a revolving cast
But its the same old game

Waves of people
Come and they go
Shot for a while
In this marvelous show

Its a limited time
That we exist
We slowly make our way
Into the mist

My thoughts are racing
I see faces of the friends that I recall
I'd like to take this time
To thank you all

Just as the blind imagine
What it is to have sight
We slowly take a stroll
Into the night

Its not easy road
This struggle and strife
We find ourselves

In the show of life.

In the show of life
In the show of life
(Find ourselves right here)
In the show of life
(Find ourselves right here)
In the show of life
(Find ourselves right here)
In the show of life
(Find ourselves right here)

Solo

(Find ourselves right here)
In the show of life
(Find ourselves right here)
In the show of life
(Find ourselves right here)
In the show of life
(Find ourselves right here)
In the show of life
