Fuck them all  
Who are they to say  
What constitutes being insane  
While existing within this world of shit  
While trying to heal your anguish

Extremity Of The Will

A bias stance and I will prevail  
You can't take what I will heal  
My bonds to glorify  
My esteem will testify

(Repeat)

The urge to persist  
Is that of total hate... Extremity

It brings an idea  
That will annihilate... Of The Will

They try to manipulate... Extremity

My spawn my life  
And I will eradicate... Of The Will
